

Art Cover iPhone 5/5s

Art covers are entirely hand-finished in all graphic details. Beautiful as paintings, they are unique pieces that only you will possess.

Art covers for iPhone 5/5S have a very special feature: they are hand made with the technique of oil painting on canvas. Design is first printed on the cloth that covers the back of the cover and then hand finished with materials that simulate the effect of oil painting. This makes the design extremely realistic to touch. Original and unique, these graphics depict some of the most famous paintings.
